

# EUROPEAN STREET LAMP

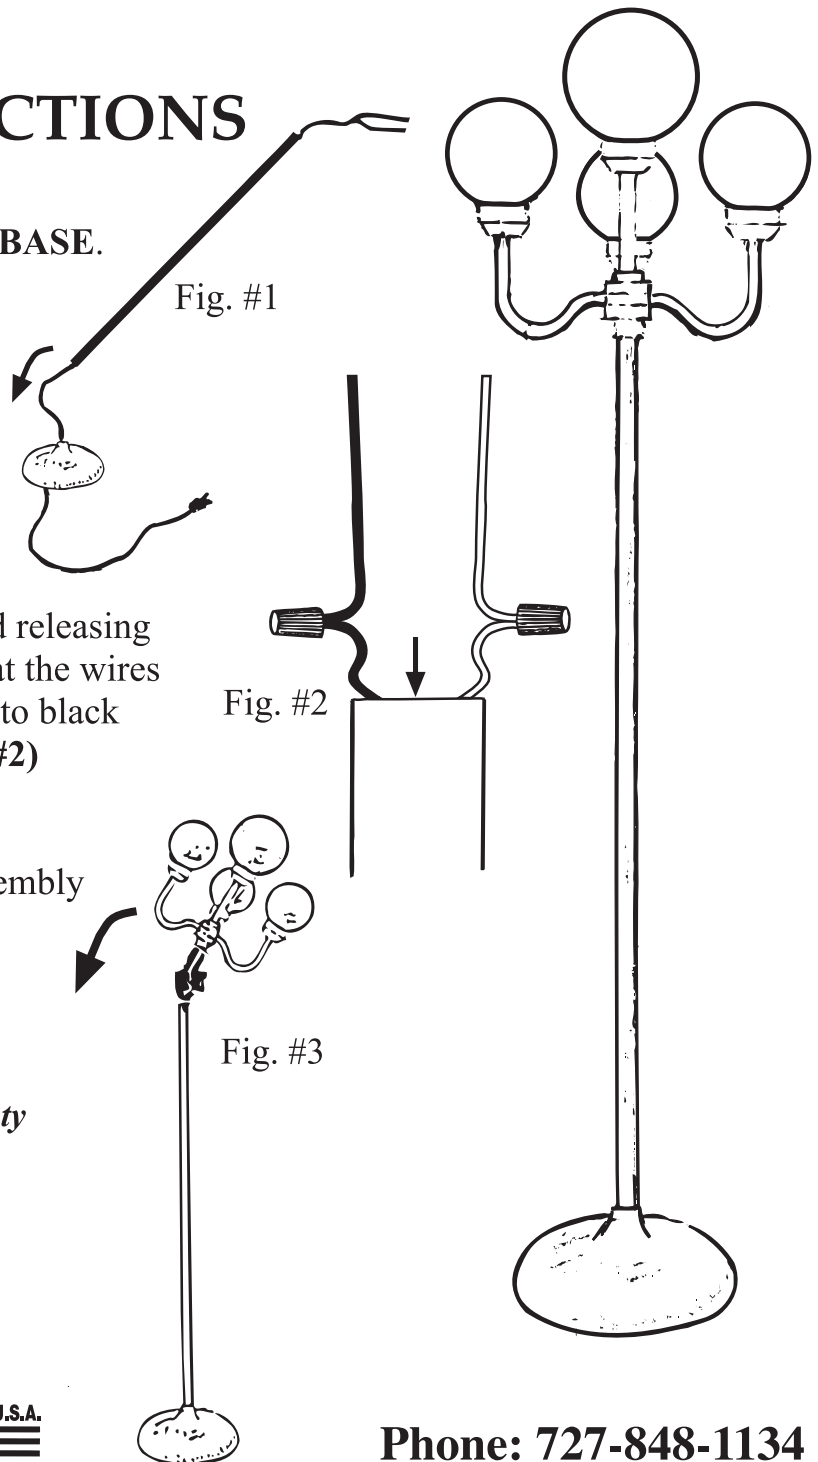

## MODEL #202 ASSEMBLY INSTRUCTIONS

1. Slide the **LAMP POLE** down over the **POWER CABLE** and into the **LAMP BASE**. Then tighten the base mounting screw. (Fig. #1)

2. Attach the wires on the **HEAD ASSEMBLY** to the **WIRE CONNECTORS** at the top of the **LAMP POLE** by compressing the end of the **WIRE CONNECTOR**, inserting the wire as far as it will go and releasing the **WIRE CONNECTOR**. Be sure that the wires are connected white to white and black to black and that no bare wire is exposed. (Fig. #2)

3. Slide the **HEAD ASSEMBLY** over the **LAMP POLE** and tighten the head assembly mounting screw. (Fig. #3)

*\*CAUTION: To reduce the risk of fire, a maximum of 40 watt bulbs must be used. Failure to abide by this will void any warranty of this lamp.*
